

NATURHOLZPLATTEN

Confirmation

TILLY Holzindustrie Gesellschaft m.b.H.
Krappfelder Straße 27
A-9330 Althofen
www.tilly.at

hereby confirms that, as a manufacturer of wood-based panel products (specifically: single-layer and multi-layer solid wood panels according to EN 13353:2022, which are subsequently processed into packaging materials by customers or their downstream customers),

according to Regulation (EU) 2025/40 on Packaging and Packaging Waste (PPWR), the sum of the concentrations of the heavy metals lead, cadmium, mercury, and chromium VI, originating from substances in the untreated wood panel in the condition in which it is supplied, does not exceed 100 mg/kg, in accordance with Article 5(4) of Regulation (EU) 2025/40 (PPWR).

The heavy metal content is annually determined by an external testing laboratory and can be verified by means of a current test report.

The following requirement of Regulation (EU) 2025/40 (PPWR), Article 5(4) is therefore fulfilled:

Without prejudice to the restrictions on chemical substances under Annex XVII of Regulation (EC) No. 1907/2006 (REACH) or, where applicable, the restrictions and specific measures for food contact materials and articles under Regulation (EC) No. 1935/2004, the sum of the concentrations of lead, cadmium, mercury, and hexavalent chromium present in packaging or packaging components shall not exceed 100 mg/kg.
